### REMARKS

Applicants, in Response to a Notification to Comply with Requirements for Patent Applications containing Nucleotide and/or Amino Acid Sequence Disclosures, have herein *substituted* the attached Sequence Listing for that submitted in Applicants' Preliminary Amendment of December 23, 2005 (which replaced the original Sequence Listing filed with the PCT application). No substantive changes to the sequence information have been made.

The "header" information has been updated to provide application numbers and to correct the actual number of SEQ ID NOS in the listing, which is 75 rather than the inadvertently recited 60.

No new matter has been added.

Applicants have additionally provided the requisite Statement regarding the identity of the Sequence Listings.

Applicants respectfully request entry of the present Preliminary Amendment.

### *CONCLUSION*

In view of the foregoing remarks, Applicants respectfully request entry of the present Preliminary Amendment and allowance of all pending claims. The Examiner is encouraged to phone Applicants' attorney, Barry L. Davison, to resolve any outstanding issues and expedite allowance of this application.
